

Coaxial Universal Connector

Fast and reliable connection of your coaxial cable to the N-Type ports

DESCRIPTION

AESA has developed a patented method to easily connect any size of 50 ohms coaxial cable to the N-ports of Scorpius devices for example.

The preparation of the cable is very easy and fast. You just have to remove the outer insulation on a sufficient length.

Calibration artefacts are provided to ensure a correct calibration plan.

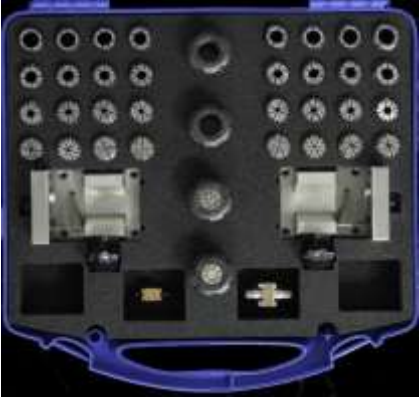

KEY FEATURES

- One fits all
- Easy to operate
 - Easy and fast preparation of the cable
 - Easy connection
- For any type of 50 Ohms coaxial cable
 - \varnothing 0.8 to 16 mm
- Patented method

AESA Cortailod
